2. Report of the Seminar of the special lecture series on "Integrative engagement on using various creative tools to create awareness on Environment" on 19<sup>th</sup> September, 2019 organised by the Departments of History, Political science and Philosophy

SPECIAL LECTURE SERIES  
Organised by Departments of Social Sciences  
Darjeeling Government College

Venue: Lalita Ral Ahmed Memorial Seminar Hall

Date: 19<sup>th</sup> September 2019, 2.00 pm

Interactive engagement on using various creative tools to create awareness on environment

Synopsis of the Film 'Voices of Teesta

*Before the formation of this holy Rongnue (Teesta) from the bottom of Kongchen (Khanchendzonga),*

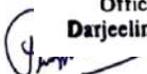

*We used to narrate the parentage of River Rongnue, Water of the river Teesta we use to offer during the ritual, If this water dries up, there will be a drought, Rongnue is a holy water, it is a god of water..Achulay, we narrate as a song.*

*Achulay Rongnue is the god of water"*

With hydro energy being one of the convenient and available energy source for the development of any given State, the film tries to understand the relationship between sacred and profane with regards to our riverine system. This film traces the faint and tired voice of an old Lepcha shaman (an indigenous community from Darjeeling and Sikkim Himalayas) singing the lore of the River Teesta and guiding the audience with the river trail of a once mighty River Teesta. It visually depicts many Hydro developmental projects and outcomes of the project around the river and allows the audience to feel the profanity around the river.

In growing times of redundant medium of disseminating information, the filmmaker explores various mediums to disseminate information and engage with the audience more on a deeper level. The engagement will explore mediums like film, storytelling, painting and interactive sessions on the dynamics of diverse geography
